

## Garage Band

This Program runs at Conie Avenue on Mondays, with our very own 'Music Man' Mark Hellmrich.

The aim of this program is for

- The participants to enjoy music through song and dance in a harmonious environment.
- To attempt to learn to play an instrument of their choice.
- To attempt to learn to sing in key through the microphone whilst performing in front of an audience.

All songs played and sung are chosen by the participants of the group, as their favourites. Some of the current participant choices are ABBA, Pink, Keith Urban and Michael Jackson.

Through learning to play an instrument this helps develop social skills, hand eye coordination, gross motor skills and rhythm.
