

ART by NATURE

Art by Nature has been designed to give opportunity for participants to enjoy nature through art by drawing, sketching and painting. They will experience the creative environment of Aberdoon House and will use picture reference in the studio, with opportunity to visit within the local area to draw and paint from real life. Participants will explore through different mediums using pencils, pastels, charcoals, paint and watercolour. It is a wonderful way to enjoy the therapeutic opportunities that the art process offers.
